TimeCubby

HOLIDAY PREPARATION / 2026

A timer for every task. A plan you can follow.

Write your preparation tasks first. Give each timer a clear name and test its sound before starting.

Table setup — **10 min**

A short preparation task

Check recipe — **15 min**

A reminder to review your next step

Tea break — **5 min**

A pause between tasks

Example durations only. Follow your recipe for food preparation. Keep the timer page open: sleeping devices and background tabs may delay or prevent alerts.

Your preparation checklist

Task / timer name _____

Duration from my own plan _____

Sound tested / page stays open _____

Task owner / start time _____

Try the example. Make it your own.
